EVOLV™ IS APPROVED FOR USE BY ATHLETES

We at Health2o Products, LLC, manufacturers of Evolv™, recognize the importance of providing safe and effective products for our customers, and especially for today's athletes. Because professional, amateur and collegiate athletes want to be assured that the products they consume are safe and legal for use in any sporting event, Health2o Products selected HFL Sport Science, the lab behind Informed-Choice, to test the Archaea Active™ formula in Evolv for prohibited substances. HFL offers the only supplement testing program that uses a WADA-experienced lab and ISO 17025 accredited analytical methods to analyze for banned substances.

Banned substance tests are typically undertaken by companies marketing dietary and nutritional supplements. Even though Evolv is classified as an enhanced water beverage and not a dietary or nutritional supplement, we at Health2o take safety seriously, and we want to provide you with the reassurance you deserve.

After sending samples to HFL Sport Science via Informed-Choice, and now having received the Certificate of Analysis, we are pleased to report that Evolv and the Archaea Active™ formula are safe and legal for use in sporting events governed by the World Anti Doping Association (WADA), the US Anti-Doping Association (USADA), and the National Football League (NFL), among others.

Evolv has been scientifically tested for banned substances appearing on the WADA 2009 Prohibited List/International Standard, including steroids, hormones, beta blockers, stimulants, narcotics and diuretics. A copy of the Certificate of Analysis can be obtained by e-mailing us at Questions@ArchaeaActive.com

Please visit www.ArchaeaActive.com for more information about the attributes and benefits of the Archaea Active™ formula found in the Evolv™ enhanced water beverage. Feel free to e-mail us at Questions@ArchaeaActive.com with any questions you may have.

Sincerely,

Kevin D. Kuykendall

HFL Supplement Screen

Consignment Number: 8708276080810402 FedEx
Delivery Date: 29 December, 2009
Date Analysis Commenced: 4 January, 2010

Product:	evolv		
Flavour:			
Batch No:	AL10220913:57L1	**HFL Reference:**	440589
Batch Expiry:	10/22/11	**Screen Type:**	Supplement Screen

GCMS: None were found
LCMS: None were found

The sample was analysed using documented HFL screening methods for the following compounds:

GCMS Screen:

At or above 10ng/g
(1) 4-estrene-3ß, 17ß-diol
(2) 4-androstene-3ß, 17ß-diol
(3) 5a-androstane-3ß, 17ß-diol
(4) 5(6)-androstene-3ß, 17ß-diol
(5) 5(10)-estrene-3ß,17ß-diol
(6) Dehydroepiandrosterone (DHEA)
(7) 5a-androstane-3,17-dione
(8) 5(10)-estrene-3, 17-dione
and/or 4-estrene-3, 17-dione
and/or 5(6)-estrene-3, 17-dione
(9) Nandrolone
(10) 1,4-androstadiene-3, 17-dione
(11) 5(6)-androstene-3, 17-dione and/or 4-androstene-3, 17-dione
(12) Testosterone

LCMS Screen:

Method Capability of 10ng/g
(1) Clenbuterol
(2) Gestrinone
(3) Stanozolol
(4) Tetrahydrogestrinone (THG)

Method Capability of 100ng/g
(5) MDMA (ecstasy)
(6) Salbutamol
(7) Strychnine
(8) Amphetamine
(9) Cathine (Norpseudoephedrine)
(10) Cocaine
(11) Ephedrine
(12) Methylephedrine
(13) Terbutaline

This certificate is a copy of an original certificate which is held by Health2O Products.
All samples tested in accordance with Supplement Screening Service Agreement version 1.1 2007/08.
Test results apply to the portion of product taken.
This certificate may not be reproduced, except with the prior written approval of the issuing laboratory.
